## Installing Sage 100 PDF Converter

****You will want to use this when the Sage 100 PDF Converter is not listed in the printer options or if you run across errors when printing to Sage 100 PDF for paperless office. ****

*** You will need administrator rights in Sage 100 to use the Utility and you will also need administrator rights on your workstation.***

1. Open Sage 100 Click on File, then select Run from the dropdown.

2. In the Program field, type PL_AdvancedOptions_Ui and click Ok.

3. The screen below will pop up. Make sure the use lockfile box is checked.

4. Click on the Install Converter button.

5. Once the installation is complete, click on the Test Converter button. If the installation worked, the watermark window shown below will appear.

This was a test of the Sage 100 PDF Converter.

Congratulations! Your Sage 100 PDF Converter has been properly installed.
